THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; easily available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

(Late Butterfield & Averell's.)
WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE to me, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of
Brandy, Gin, Rum, Wines, &c.
The following may be found among my stock:—

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially a description of the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. Also a machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Roberts, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after these eight years experimenting upon these machines, not one is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the preceding inventors, at the cost of the machine and the prevent the trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order the the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such a trial.

OFFICIAL PAPER OF THE CITY.

PROCLAMATION BY THE GOVERNOR.

[illegible]

NELSON DEWEY.

[illegible]

☞ We have a new carrier in the 5th Ward.—Subscribers who do not receive their papers regularly will oblige us by leaving word at this office.

FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, MONDAY 17th Nov.

More treasure from California, here and on the way—more going home by the two steamers of this week, on Wednesday and Saturday, for Europe—the two will take 1½ millions of dollars. Our receipts from California by the *Webster*, arrived, and by the *Illinois*, due, will about equal this sum, and there is no apparent measureless stringency in the money market. Exchange, however, continues current at 10½ per cent, which leaves a sufficient margin to operators to export coin, and draw bills against it. Until spring our importations will be comparatively light, while large exports will, as usual, take place at this season.

In the course of a week we shall look for Kossuth—whose coming in the American steamer named *Washington* (of the New York and Bremen line) will be thereby enhanced in *prestige*, if not in reality. The name and the country of Washington will hallow the approach of the Hungarian Kossuth, a man so brave, so disinterested, so wise, and so hopeful—whom defeat cannot reduce to despair—whom suffering and danger cannot intimidate nor discourage—who, vowed to his country for weal or for woe, will not be separated from her and her destinies while his life endures. He comes here, as he himself says, not as an individual, but as the representative of a principle—not any principle of socialism, of red republicanism, or of anarchy—but the principle, sacred to us Americans, of nationality—the principle, that all people have the right to determine their own form of Government, and that no one despot, or any combination of despots, can impair that right. He came to this great Republic to hesitate in [illegible] sympathy with all who [illegible].

He comes not to ask an armed interposition in Europe, which we would, in regard of Hungary [illegible] proper form the ground taken by Mr. Webster's letter to Mr. Hulsemann, the Austrian *Charge*, that, as a member of the family of nations, as a portion of the *Grand Army of Civilization*, a phrase, by the bye, not of Mr. Webster's, but of Gen'l Scott's, on a memorable occasion, we are bound to entertain and express our opinion of any gross violation of the laws, rules, and usages, which constitute what is termed the Law of Nations.—Public Opinion [illegible] of the world's history, more [illegible] of men, than that public opinion [illegible] individual opinion [illegible] press, and [illegible] boycotts, [illegible] the transmission of free opinion [illegible] defeat it wholly; and it is [illegible] the espionage and all the [illegible] all the arms of combined [illegible] Russian, can arrest Truth. Free [illegible] moral and irresistible force of [illegible] which Kossuth makes his appeal to America and to England. He will not appeal in vain; and both England and America [illegible] "We sympathize with Hungary [illegible] conviction that she has been wronged, outraged and betrayed, and that both Austria and Russia have violated, in respect of her, her own national rights, and the laws of nations."

If these nations take offence thereat, they may be left to digest it at their option—we shall not heed it.

I presume that you will have published Kossuth's remarkable speech in London. Its eloquence, great and remarkable as that is, surprises less than its wise and considerate statesmanship—its profound political axioms—its marvelously skillful adaptation to the feelings and instincts of Englishmen—and hardly less than any thing else, its astonishing command of a language to him foreign and unused. *Apropos* of this language, I have heard an anecdote—perhaps it is in print, tho' I do not remember to have seen it—accounting for Kossuth's knowledge of England, and exemplifying very strikingly the force of character and resolute purpose of the man. When in an Austrian dungeon debarred from all communication with the world, he asked as a boon, for books. This was long refused; at last he was told he might have 2 or 3 books. He asked for, and obtained, the *Bible*, an *English pronouncing Dictionary*, and *Shakspeare*, and these and these acquired that mastery over our mother tongue which I confess my own longing to hear him exercise on our own shores. He will hardly be here before the end of next week, for the *Washington* is not among the very fast, although a very fine and comfortable steamer.

Our state election—thanks to Cotton Whigs in this city, and treachery among the Silver Greys in Ontario and Monroe Counties—has gone against us to the extent of losing us the control of the Canal Board. The *Journal of Commerce*, the organ of the Union Committee, openly proposes now that the law of the last session, authorizing the immediate enlargement of the Canal shall be repealed. Happily, this cannot be done, for [illegible] Whig majority, although a small one, in the House [illegible] especially we have a thorough firm Whig [illegible] who would unhesitatingly put [illegible] to any such destructive and dishonest legislation. But the proposition none the less shows the [illegible] of the party which the *Journal* [illegible] exposes the hollowness of the pro[illegible] the democratic candidates that they [illegible] carry on the will of the people [illegible] the law for enlarging the canals [illegible] indeed, that in this state, controlled [illegible] by its canals—the man Chatfield, who so recklessly sought to defeat the bill for the enlargement should be reelected as Attorney General of the State. It is indeed, a [illegible] upon the character of the man, that [illegible] is mainly owing to Anti-Rent [illegible] quite in keeping that the law officer [illegible] to the dishonest scheme [illegible] to violate vested interests and the [illegible] property should also be found on [illegible] who like the *Journal of Commerce* [illegible] the voice of the people [illegible] enlargement of the Canals, and [illegible] and working for the [illegible].

[illegible] Under this ap[illegible], the *Commercial* of yesterday [illegible] to its false and calumnious [illegible] the Whig party, in respect to the [illegible] letter. It has nothing left [illegible] of the apocryphal statement [illegible] the name of a whig who sent [illegible] city. And this faint shadow of a [illegible] the whole basis on which the *Commercial* [illegible] its mammoth fabrication. No wonder it toppled over so quick.

MILITARY IN N. Y. CITY.—The 90 independent military companies in New York are preparing for a grand display at the reception of Kossuth. They number, in all, over 6,000 men,

Result in the State.

Thanks to our attentive correspondents at Madison, we have this morning the official returns from *all* the counties in the State, except *four*, viz: Oconto, Door, Chippewa, and La Pointe. The figures will be found in another column. The majorities, as received, foot up thus:

FARWELL, (whig)	- - -	3511
UPHAM, (dem.)	- - -	2982
Farwell's majority,		529

Oconto is reported at 59 for FARWELL, and from the other three counties we have neither reports nor returns. It is quite probable that no election was held in La Pointe, and it is not likely that the united vote of these three remote counties, on our North, North East, and North-West border, would reduce Mr. FARWELL's present majority (588, including Oconto) much, if any, below 500.

Mr. LADD, the democratic candidate for State Superintendent, is elected over Mr. Lord, Independent, by two or three thousand majority, and the balance of the Hunker State Ticket is also successful by a still larger vote.

The LEGISLATURE stands as already stated by us. In the SENATE, the Hunkers have 13 members, the Whigs 5, the Free Soilers 1; and in the ASSEMBLY, the Whigs have 31 members, the Hunkers 27, and the Free Soilers 6; with one vacancy, occasioned by a *tie* in Dodge County. On joint ballot there is a majority of *ten* against the Hunkers, which will be increased, or diminished *one* vote, according as the tie in Dodge county is decided.

P. S.—The Fort Winnebago *River Times*, received last night, gives Upham's majority in Columbia County at only 16.

THE OLD STORY.

Philadelphia, Nov. 18.

At a large Democratic meeting held in Berks Co. last evening, resolutions recommending the modification of the Tariff as a *Democratic* measure, and as *an act of justice* to Pennsylvania, were unanimously adopted.

The idea of demanding a modification of the Tariff "as an act of justice to Pennsylvania," is strikingly characteristic of the "democracy" in that State. It is taking a narrow and selfish view of a broad, National question. WISCONSIN, equally with PENNSYLVANIA; the West, as much as the East, and the South not less than the North, is *vitally* interested in the matter. The WHOLE COUNTRY, in a word, suffers and bleeds at every pore under the operations of Mr. WALKER's British Free Trade Tariff.

Pennsylvania knows and *feels* this, "Democracy" therefore, in that State, tho' it opposes River and Harbor Improvements, is clamorous for a Protective Tariff; while the same Protean party in Wisconsin demands Internal Improvements, but declares for *Free Trade!* In *both* States, on the other hand, as in *every* State and in all parts of the Union, the WHIGS are the firm, zealous and unflinching advocates of both these great measures. PROTECTION TO AMERICAN INDUSTRY is inscribed on every Whig flag that waves between Maine and Florida, from the Atlantic to the Pacific. The Whigs demand a change in the Tariff, not alone for Pennsylvania's sake, but "as an act of justice" to the entire Republic. They demand it, not for the benefit of Manufacturers merely, but as due to *every industrial interest* of the country.

The Farmers, Mechanics and Workingmen of the United States can effect this change if they *will*. The industrial classes in this State can, if they so elect, give the vote of Wisconsin, next fall, to the *Tariff Candidate*. The subject is one well worth their study during the coming winter. We invite them to give it their *best* attention. The decision is in their own hands. It is for them to say whether the American Government shall extend encouragement and protection to Home Enterprise and Industry, or to *Foreign* Capital and Labor.

GEORGIA SENATOR.—Senator BERRIEN has got two years to serve before Mr. TOOMBS' term commences. Of course the latter has his two years in the lower House, before he succeeds Mr. Berrien in the upper.

The system of electing members to Congress so long in advance of their terms, is all wrong.—In the lower House, the members ought all to be chosen in the fall previous to the commencement of the Congress.

☞ The New York *Evening Post*, a democratic organ, in noticing the speech of Mr. Toombs, of Georgia, declaring that the Union Party in Georgia would act as Southern interests might require, in the Presidential contest of 1852, says:

"This looks evidently to the nomination of a southern Independent candidate, in view of which, it may be well for the Northern States to be looking around for a candidate who will be sure to carry the whole North. That done, we will be content with the candidate who has the most votes."

CHIEF JUSTICE OF MINNESOTA.—The Minnesota *Pioneer* has a three column article on the subject of the recent removal of Chief Justice GOODRICH, of Minnesota, and the appointment, in his stead, of JEROME FULLER, late editor of the Albany *Register*. The article closes thus:

"We understand, that Judge Goodrich will continue to discharge the duties of Chief Justice of Minnesota territory, which he was commissioned to discharge by President Taylor, to the expiration of the term for which he was appointed."

VOLCANIC ERUPTION.—The last dates from the Sandwich Islands bring accounts of an eruption of the volcano on the Island of Mauna Loa.—The torrent of lava was flowing off at the rate of three miles a day. Its appearance from on board ship, at a distance of 60 or 70 miles, was sublime and grand beyond description. From the course taken by the stream, it is thought it will reach the sea somewhere to the southward of Kealakekua.

POST OFFICE DEPARTMENT.—It is estimated that the receipts of this Department will show a deficit of $1,829,005,80, below the expenditures of the current year. As the Department had at the commencement of the year a balance in its favor of two and a half millions, the deficit will be met easily. It is said that the Post Master General will recommend great alterations in the postage laws, particularly in the system of newspaper rates.

LAST LINK DONE.—The cars ran from Cleveland to Painesville, Ohio, (30 miles) on Saturday week. This is the first link in the Lake Shore line of railways that has been put in operation. It is expected that the track will be completed from Buffalo to Cleveland early in the winter, with the exception of that portion which lies between Erie and Ashtabula.

SHEBOYGAN AND FOND DU LAC PLANK ROAD.—The contract for the balance of this road, 7 miles, has been taken by our fellow citizen A. L. McCRAY, making his whole contract 27 miles. Mr. McCRAY informs the editor of the Sheboygan *Mercury* that the road will be completed to Fond du Lac by the 1st of July next.

GENERAL REJOICING.—The election of Governor FARWELL was, as we already know, highly satisfactory to the Whigs and Free Soil Democrats of our State; and we are glad to find by yesterday's *Commercial* that the Hunkers also rejoice over the result. Such being the fact, the popular sentiment of Wisconsin on this particular question, may safely be set down as *unanimous*.

ACCIDENT.—The freight train on the Hudson River R. R., one day last week, ran into a rock weighing some 40 tons which had rolled down upon the track. The engine was tumbled over, and considerable injury done to the train. No lives lost.

GENEVA COLLEGE.—A despatch from Utica, N. Y., states, on the authority of a private letter, that Trinity Church has bestowed a perpetual annuity of $3,000 on Geneva College, to make tuition free. The donation is doubtless intended for candidates for the Episcopal ministry.

☞ The Washington *Republic* publishes a rumor that Secretary Corwin has lost $51,000 by the failure of the Columbus Insurance Company.

RICHMOND'S EXCHANGE BANK.—A branch of this establishment has just been opened in Sheboygan, under the charge of F. R. Townsend.

BURNING OF THE BERLIN.—The Oshkosh *Telegraph* has the following letter from the captain concerning the damage to the steamer *Berlin*:

ON BOARD STEAMER MENASHA,
Menasha, Nov. 15th, 1851.

FRIEND EDWARDS:—The steamboat *Berlin* was much damaged by fire while lying at H. Reed's dock, Neenah, this evening.

She arrived there about half-past 6, and took fire about 7 o'clock. All hands were up and about, but no one was on deck the moment the fire took. Both engineers were in the Saloon, and the first intimation they had was on opening the door to come on deck, when the flames met them in the face. She was scuttled immediately, and the damage to her hull is trifling; the main deck forward and aft will not need much repairs; but the cabins, side houses and upperworks are all gone—not even a standard left. The wood-work of her pitman and the engine frame were consumed.—The crew lost everything except what they stood in. No furniture was saved, nor lives lost. There was no freight on board.

Yours truly,
P. HOTALING.

"RICH DIGGINGS."—The following paragraphs, which are clipped from the El Dorado *News*, would seem to show that there are some "fat takes" left in California yet:

Mr. C. White, of Wisconsin, showed us a lump of pure gold a day or two since, which he took out of "Volcano" diggins, weighing forty-four ounces and a half—$712!

The miners on the Middle Fork, from this place to Mormon Island, with a very few exceptions, have done well this season. At Missouri Bar, about five miles above Salmon Falls, on Thursday last, the Benedict Company took out $500 at one panful of dirt. A company working at Salmon Falls, have averaged from seven to eleven hundred dollars per day, for three months.

On Wednesday last, Mr. Eayers took out two thousand and eighty-four dollars at one panful.—This great haul was made at the Yankee Slide, near Grey Eagle City, on the Middle Fork.

PENNSYLVANIA SUPREME COURT.—The newly elected Judges of the Supreme Court of Pennsylvania have drawn lots for their terms of office as follows:

Hon. Jeremiah S. Black, three years, Chief Justice; Hon. Ellis Lewis, six years; Hon. John B. Gibson, nine years; Hon. Walter H. Lowrie, 12 years; Hon. Richard Coulter, (Whig) fifteen years.

The four last will successively hold the seat of Chief Justice for three years, a new Judge being elected every third year for a term of fifteen years. The Court will hold its first term in banco, Philadelphia, next month.

GLORIFICATION.—The Watertown *Register* comes to us with its big gun out, and a whole load of tremendous "cags," glorying over Upham's probable election. Here is what it says:

The probability now is, that Upham is elected, as it will be seen by the official and reported returns, published below, that Farwell is only 48 ahead, and the counties of Chippewa, La Pointe and Door not heard from. Chippewa gave Dewey 100 maj. We hope in our next to record the success of the Don. Three cheers for the prospects, if for nothing else.

TRADING ON BORROWED CAPITAL.—The Louisville *Journal* has the following notice of a recent attempt to rob the gallant dead of their laurels for the benefit of the ambitious living:

We see that Gen. Wool's friends in New York, are claiming for him all the honors of the battle of Buena Vista. We suppose they think that Gen. Taylor has'nt any need of those honors now, and that Gen. Wool has very great need of them.

COMFORT FOR THE WISCONSIN.—The Kenosha *Telegraph* of Saturday last says:

The Wisconsin is becoming alarmed lest the whigs and freesoilers who have the majority in the legislature should do as they please. For our part, we are not afraid to trust them.

Badgers in California.

The last mail brought us a brief letter (the first of a long series, we trust) from our late associate, Mr. W. J. A. FULLER, written soon after his arrival in California. We make a few extracts which may be interesting to our Wisconsin readers:

SACRAMENTO, Oct. 13, 1851.

DEAR GENERAL:

I have barely time, before the closing of the mail, to send you a brief epistle. The expressive *Cut* is a joint contribution from —— and myself. As —— is so extremely partial to all such engravings I could not resist the temptation to invest "four bits" in such an affectionate remembrancer. I enjoyed a nice champagne supper last evening, with a lot of "Badger" friends, where we had "all the delicacies", of every country and every season, sent to this country in tin boxes, and proving, when opened, to be as fresh as when first put up. We luxuriated on fresh Peaches, Plums, Apples, Oysters, Roast Mutton &c., washed down with the best London Ale and Porter, and all kinds of wine, including some *real* old Port. They tell me that no well-behaved man here indulges in more than ten drinks, or four meals *per diem*, or stays out later than two o'clock "o'nights," and I recommend like abstemiousness to sundry of my Milwaukee acquaintance who shall be nameless.

Gen. HUTCHINSON is here working hard, doing well and universally liked. WILLIAM H. HALL is also a resident of Sacramento, and making some money out of a Quartz Mining Company. PUTNAM is doing an excellent business here, as a broker. DAVID WILLS is shaving at *four* shillings and cutting hair at *eight*; making money, but dissatisfied with GEORGE, for not writing oftener. WATKINS is at San Francisco; C. YATES (of Walker's Point) is keeping Tavern and is Agent for the San Francisco *Herald*. Our old Whig Sheriff GEO. GRAVES, is keeping a Hotel; he has been confined for some time, with an affection of the lungs, but is now mending slowly. I have just returned from a visit to the mines, where I saw Dr. BLANCHARD's son. I have written an account of my trip for the "Union," the Whig paper here, and will send you a copy, having no time to write more just now. Faithfully yours,

FULLER.

The "expressive cut" referred to in the above letter is a lithographic representation of the *hanging* of SAMUEL WHITAKER and ROBERT MCKENZIE, by the Vigilance Committee of San Francisco, on Sunday, August 24th at 3 P. M., "in presence of Fifteen Thousand People." Tho' not particularly remarkable as a work of art, it conveys an impressive moral to all rogues who may be turning their thoughts, or directing their steps, Californiawards.

For the Daily Sentinel.

MILWAUKEE, Nov. 24.

Messrs. Editors:

I did not intend to trouble you again with publications, nor hold any further controversy with my friend, Mr. FRATNY, but as he seems to be very uneasy and feels very much troubled, I wish to relieve him, if possible.

Mr. F. in his paper of 22d inst., after abusing and insulting me in the basest manner, has raised the "*Ash Mottles*" to the rank and honor of being correspondent and co-editor of the *Volkshalle*. This was entirely unexpected on my part, as I did not suppose Mr. Fratny had such an exalted opinion of my abilities.

Mr. F. undoubtedly expects me to retire from my present occupation of drawing ashes; consequently I propose to present Mr. F. my "*Ash Cart*" as a token of gratitude! He can, perhaps, make more money and "*exert more influence by following this trade,*" than to abuse and insult others through the columns of his paper.

I sincerely hope that my friend Mr. F. will be satisfied.

Very respectfully yours,
PETER STEFFEN.

Improvement in the Locomotive.

The following account of a recent invention, is of great interest to railroad men. If it shall prove on a thorough trial, to be all that is hoped from it, it must very much reduce the cost of locomotives. We copy from the Xenia, Ohio *Torchlight*:

A NEW LOCOMOTIVE.—We have just witnessed the successful trial of a newly invented Locomotive, which, it seems to us, contains improvements of vast importance, and must eventually produce a great revolution in that important machine, the "Steam Horse," and contribute greatly to the interest of Railroad companies, and others employing steam as a mechanical power. The improvement most happily combines *simplicity of structure, economy* and *power*, and great *convenience* in controlling that powerful agent, *steam*; and it requires but a bird's-eye glance to comprehend and appreciate their great advantages.

The most remarkable feature in this new locomotive, is, that it contains less than one-third the amount of machinery found necessary in the ordinary road engine, notwithstanding it has three cylinders operating upon the driving axle, and consequently a third more power. The cylinders are located in the centre of the carriage, and their pitmans are attached to three cranks on the axle, in positions describing the points of a triangle, producing a perfect uniformity of motion and power, entirely doing away with the oscillation, or jerking motion, usually experienced in ascending grades on Railroads, and always felt on board of steamboats. The cylinders are supplied with steam by means of two seperate and independent throttles, one connected with the corresponding end of each cylinder, and the other with the opposite ends, enabling the engineer to increase or diminish the force of his engine one hundred per cent at will, by simply opening or shutting a throttle valve.

By the triangular attachment of the pitman a perfect and uniform rotary motion, and uniform force is obtained by using only one end of each cylinder at a time; which enables the engineer to husband his steam on level and descending grades, and at the foot of an ascent instantly double the power of his engine, by simply opening the second throttle; thus securing all the advantages of the modern "cut-offs," without any of the expense, complexity or friction attending them.—By very simple and ingenious devices, the Steam Chests, Eccentrics, Cams and Rods, and four out of seven of the Packing Boxes are dispensed with, annihilating the vast complexity, friction, and liability to get out of order, so well known to belong to the common Locomotive Engine, as well as about one-third of its present cost. The model which we saw in operation, is of full two-horse power, and weighs upwards of 1200 pounds, and can be seen at the residence of Mr. D. Winder, the inventor, Main Street, Xenia.

This invention is evidently of universal application in the use of steam, and supplies a desideration in crank motion—uniformity of motion and power—sought in vain ever since team has been in use. Steps have been taken by Mr. Winder to secure a patent from the United States, and we understand also in foreign countries. We are authorized to say that Mr. W. will take pleasure in exhibiting and explaining his improvement to all interested, who may be pleased to call at his residence in Xenia.

New York Election.

The N. Y. *Courier and Enquirer* remarks as follows concerning the late election in the Empire State:

How stands then, the question of whig supremacy in this State? We had arrayed against us the Hunkers, Barnburners, Anti-Renters, Rascal Abolitionists, and the Union Committee acting as a tool of these factions. Honest men were thus lead astray—conscientious, law loving, Union Whigs, were thus seduced from their allegiance.—Yet notwithstanding all this, and in the teeth of all the combined factions of this State, we are beaten about an average of a thousand votes in a poll of more than four hundred thousand!! Had the Union Committee been true to the Union, to their Southern brethren, to their constituents and to the country, even Granger's treachery in Ontario would not have prevented the election of the entire Whig ticket.

Such a defeat, is, in our eyes, a victory; and we fearlessly promise the vote of the Empire State in 1852 to any Conservative, Union Whig, when the National Convention may nominate.

HARTFORD PROTECTION INSURANCE COMPANY.—A rumor, discreditable to this institution, was started some days ago. The following despatch, received this morning, shows that it was without foundation in fact.

Hartford, Nov. 21.

The rumor in Chicago against the Protection Company is groundless. It was never doing better.

"TALKING TURKEY."—The editor of the Burlington *Sentinel*, in view of the approach of Thanksgiving, throws out the following hint to his subscribers:

"Any gentleman having a turkey to spare, (not a *spare* turkey, however,) will please take the hint, and we will take—the turkey."

City Matters.

MILITARY HALL MEETING.—At a meeting held at Military Hall, Saturday evening, to take into consideration the action of the Common Council in surrendering the Railroad bonds to the Mil. and Miss. R. R. Co., R. N. Messenger, Esq., was appointed Chairman, and Alderman F. J. Jung, Secretary.

Dr. Huebschmann explained the object of the call for the meeting, and after a discussion in the best feeling by Messrs. Huebschmann, Holton, Johnson, J. B Smith, Schoeffler, Jas. S. Brown and others, the following Resolutions were passed with great unanimity:

Resolved, That in the opinion of this meeting, the Common Council acted too hastily in surrendering to the M. and M. R. R. Co. $78,000 real estate security, without first consulting the wishes of their constituents.

Resolved, That the Common Council should surrender no more of the M. and M. R. R. Co's real estate securities without first consulting public opinion as to the propriety of such action.

Resolved, That a copy of the foregoing Resolutions be served upon the Common Council by the Chairman and Secretary, of this meeting.

Resolved, That we have full confidence in the Mil. and Miss. R R. Company and its ultimate success, and by the foregoing Resolutions we only intend to express our disapprobation of the hasty action of the Common Council, and of their neglect to ascertain the wishes of their constituents.

Resolved, That the proceedings of this meeting be published in the city papers.

CITY TRACT SOCIETY.—According to previous notice, this Society held its anniversary on Sunday evening in the basement of the Plymouth Church.

Mr. BURTON, President of the Society, made a few remarks, and introduced the agent, Rev. W. L. PARSONS, who read a Report of his doings for the year. It was listened to with deep interest, and showed that the agent had done his work thoroughly so far as means had been provided. The following facts were presented:

During the year the Society has employed about 80 distributors of Tracts in the different wards of the city, and the aggregate number distributed is about 190000.

Mr. Parsons and others have held Sabbath services in the jail and on board of vessels in port, which have been well received, and resulted in much good to the hearers.

No less than 500 children have been looked up by the distributors and induced to come to the Sabbath Schools.

The debt of the Society is a little over $300, and an appeal will soon be made to our citizens to provide means for its liquidation, and to continue the useful services of the City Missionary. It is hoped that our people, never backward in a good cause, will meet the appeal cheerfully and liberally.

MILWAUKEE AND MISSISSIPPI RAIL ROAD.—By reference to our advertising columns it will be seen that the Cars on the Milwaukee and Mississippi Rail Road now run regularly to North Prairie, eleven miles beyond Waukesha, and some thirty one miles from this city. They connect at that point with the Stages for Janesville. The hours of departure from this city are 7¼ A. M. and 3¼ P. M., and the hours of arrival 11 A. M. and 7 P. M. Ere long we hope to announce the completion of the road to Whitewater.

PLEASANT—VERY.—To travel down to the Collector's office for the marine list, and from thence around over the hubs to the Menomonee bridge to get to the Railroad Depot, but to find Captain Hawley's huge machine fast in its jaws, and be obliged to back out, and travel away up to the Spring St., bridge to get around. Fun alive, isnt it?

We go for a bridge across from the foot of Buffalo St., *instanter*.

REED STREET CHURCH, FIFTH WARD.—Mr DANIEL WAIT is soliciting subscriptions, in small amounts, from our citizens, to pay off a debt of $300 against the Methodist Episcopal Church in Reed Street, Fifth Ward. The Congregation have given freely of their own means, towards the purchase of a lot and the erection of the building, and now appeal to their friends and fellow-citizens for help. We trust their appeal will not be in vain.

ENGINE COMPANY No. 3.—We learn that at a special meeting of Oregon Company No. 3, held on the 23d instant, all the Members, following the lead of their efficient Foreman, JACK LANGWORTHY, took the Temperance Pledge. This is a feather in the cap of the Oregon boys.

ANOTHER CROSSING.—The Wisconsin and East Water St., crossings are finished—that is a fixed fact. But what in the name of common sense, are those holes in the ground at the South end of the two new ones made for. Does any body know?

☞ WALL sells a quantity of apples this morning—a matter of interest to the toothsome. He also sells four or five "groceries," or more.

JUSTICE'S COURT.—*Harvey Smith, vs. Thomas Spencer and C. Robinson.*—This was an action brought to recover rent. Dr. Robinson occupied the house from May 1850, to Aug. 1851, when he left because the adjoining house, owned by said Smith and rented to another man, had been sublet to a brothel keeper. Plaintiff demanded full rent to November. The Jury gave him ten dollars, the balance due on the quarter up to the time Dr. Robinson left the house.—*Free Democrat.*

EXECUTION OF H. B. CONKLIN FOR ARSON.

Utica, (N. Y.,) Nov. 21.

The unfortunate Conklin was executed at 11¼ A. M., and was attended by the Rev. P. H. Fowler, of the 1st Presbyterian Church of this city, of which Conklin's mother is an exemplary member. Mr. F. has been his spiritual adviser, and attended him this morning, and offered him the consolations of religion in his last moments.

The prisoner, ever since his conviction, has exhibited a proper spirit. He has been very much broken in heart for his past misdeeds, and has looked with hope and confidence for forgiveness. His conversation with regard to those he thought had wronged him, has all been in the most christian spirit.

His last night he declared to be the happiest of his life. He often protested he had rather die than live the life he had lived. Rev. Mr. Fowler informs us no man in his circumstances could act better than Conklin had done since his conviction.

The instrument of death was a lever with its longer arm about two feet longer than the other, erected in the yard at Whitesbro.

To the longer end were attached 356 lbs.weight; from the shorter end the prisoner was suspended. The longer arm was fastened with a cord to a beam, and by cutting the cord the weights were made to fall, and the other arm of the lever was suddenly raised about 6 feet. In the enclosure were about 200 persons, jurymen, special deputies and officers. The Utica Citizen's corps and the Waterville corps were on duty. At 11 o'clock the death warrant signed by Judge Gridley, Robert Evans and Penfield, was read by the District Attorney to the prisoner in his cell. He listened to it calmly, and then shook hands with those about him. At 11¼ A. M. he was brought from his cell, accompanied by the Rev. Mr. Fowler. He was attired in a black dress coat and pants. His arms bound behind his back with a cord. On his head was the cap of death, and around his neck was the fatal rope. He was placed on a chair beneath the gallows.

Rev. Mr. Fowler said "Conklin wished me to say for him that he had nothing to add to what he had already written, but he prayed that his awful example may be sanctified to all present that it might warn all to shun his course and prepare for the certain death awaiting you all. He entreats you all to be ready to meet him at the judgment."

Conklin was placed on the chair under the gallows. Rev. Mr. Fowler then offered a fervent prayer for the prisoner's pardon, and that he might be with Christ that hour in Paradise.

Conklin said "Lord Jesus receive my spirit," and Mr. Fowler said "Lord have mercy on your soul."

The prisoner was calm and exhibited no sign of fear, but met his death like one who saw a brighter prospect beyond the grave.

The death cap was pulled over his face and the rope was cut, and he was raised several feet from the ground. His neck was not broken, but the jerk rendered him insensible, and he probably suffered no pain afterwards, although his pulse was observed by Drs. Smith, Talcott, and Cobb, in attendance, to beat 13 minutes after he was suspended. He died by strangulation, and easily, though life lingered long. After hanging thirty minutes his body was placed in a coffin and brought in a hearse to the residence of his father in this city.

Philadelphia, Nov. 19.

In the U. S. District Court today, Wm. Shepler was convicted of counterfeiting U. S. coin.—The prisoners counsel moved for a new trial.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, November 25, 1851.

Owing to the lateness of the season, and the bad state of the roads, the past week has been one of great dullness in the produce market. Receipts from the country light, and shipments not large. The season is so late now that we may expect but few more shipments. Trade has been fair, and a good business has been done with the country. Merchants are busy piling away their fall and winter stocks, and things begin to put on a winter face generally.

FLOUR is without change. Receipts from the country limited, and only about 1500 bbls added to the stock by the mills; 1000 bbls shipped.

WHEAT dull and without change from last week's quotations. Farmers seem determined to hold on, in the faint hope of better prices. We fear it will prove a delusive one. We quote at 50@62½c for the range from inferior spring to good winter.

BARLEY quiet—sales less than last week, and figures less—we quote at 35@40c.

CORN—very little comes in—a few sales at 30@31c.

OATS—in demand at 16@17c.

BEEF—rose 25c in the middle of the week, owing to the demand for packing, but has again receded, and we quote at $325@375 per cwt.

PORK—a brisk demand for the lake ports during the week brought pork up to 4.37½@4.63, but packers feel that these rates and those that have been paid for several weeks are rather high, and let the price down yesterday, to $4.00@$4.25.

SALT—selling at $1,50 at wholesale, $1.63 at retail.

APPLES plenty, and sale brisk. Quality better than heretofore. We quote at $2,50@$3,50.

Chicago, Nov. 22.—We hear of sales of winter wheat to city mills at 58@61c. Sales of spring do at prices ranging from 39@42c; 35@42c being paid for best samples for milling. Receipts of grain are light.

Salt—sales 175 bbls fine at $1,50; a lot of coarse at $1,45.—*Journal.*

Albany, Nov. 15.—In our market there is little of interest to notice. A drenching rain has fallen during the entire morning, and no out-door business of any moment has been transacted.

During the week the Grain market has undergone several important changes. Barley has met with a steady demand at a daily decline in prices, and the sales of this day, compared with those made on Saturday last, show a decline of from 5 to 7 cents ℔ bushel. This, in part, is attributed to large receipts and the withdrawal of city maltsters from the market.

Oswego, Nov. 18.—There is a fair demand and considerable activity in the grain market, with sales since our last report of 2,400 bush Sandusky wheat at 73½ cents from store, 2,800 do Sandusky at the same figure from store, 2000 do white Michigan at 76 cents, 2,400 do white Michigan at 78½ cents from store, 2600 do Ohio from store on private terms, 2000 do Cleveland at 72½ cents afloat, 5300 do corn at 45 cents afloat.—*Com. Times.*

Detroit, Nov. 20.—The flour market was very dull yesterday, and strong indications of a closing season presented. We note sales of a few hundred bbls choice brands at $3,12½@3,15, mostly for the Dunkirk route.

CANAL COMMERCE OF CLEVELAND.—The receipts of Wheat the present year to the 15th inst. are 2,529,699
In 1850, to the same date 1,192,559

Increase, bush	1,337,140
Receipts of Corn in 1851, bush	998,059
" " 1850, "	831,704
Increase, bush	166,355
Receipts of Flour in 1851, bbls	645,730
" 1850, bbls	367,737
Increase, bbl	277,993

At 70c per bushel for the wheat, 45c for the corn, and $3.25 per bbl for the flour, the value of the increased amount of these three articles since 1850, is $1,906,038 25.—*Cleveland Herald.*

AT this season of the year, there is a continual account of disasters coming to us of vessels, steamboats, and propellers being wrecked upon the Lakes, and of the damage done to the cargoes of Merchandize. Such has been the fate of several invoices of Dry Goods, on the propellers St. Joseph, Niagara and James Wood, and the result is that such goods must be sold at auction. Therefore you may look out for a great excitement at the City Auction Room on Wednesday morning, Nov. 26th, at 10 o'clock, at which time I will sell an invoice of Dry Goods, to wit:

50 pieces Twilled Red Flannel,	10 pieces Satinet,

GREAT DISCOVERY.

Johnson's Chemical Hair Invigorator.

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually Scurf and Dandruff; prepared only by S. Johnson, 151 East Water-st., Milwaukee.

FOR THE TOILET.

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

DAILY SENTINEL.

Arrival of the Georgia.

New York, Nov. 19.

The *Georgia* from New Orleans, via Havana, arrived about 3 o'clock this morning, bringing the mails and passengers by the *Illinois* from Chagres, the *Illinois* having met with an accident to her machinery, on her passage from Chagres to Havana.

The *Georgia* has about $1,500,000 in gold on freight and $400,000 in the hands of passengers, of whom there are about 350. Some of them came by the Nicaragua route, but could not obtain passage by the other line.

They were 14 days crossing from the Pacific to the Atlantic.

It is said that 2000 persons still remain at San Juan.

Mr. John Thrasher has been tried and found guilty of treason, at Havana, and has been sentenced to eight years in the chain gang.

From Mexico.

New Orleans, Nov. 11.

The steamship Fanny has arrived here from Brazos, and confirms the report of Caravajal's having abandoned the siege of Matamoras. His failure is attributed to his want of military capacity and decision.

There was a perfect stampede among his forces, increased by the report of large Mexican reinforcements being at hand, which, however, proved groundless. Caravajal subsequently established his post at Reynosa, where many rejoined him.—A Rio Bravo paper says that Capt. Ford of the Texan Rangers, has recovered and will rejoin Caravajal and continue the war.

The Mexicans are greatly elated at their success.

In the 4th Congressional District, the election has resulted most unexpectedly in the success of Judge Moore Whig, over Mr. Morse, the present incumbent, by a small majority; it is also generally thought B. Orlando, Whig, is elected Auditor.

Later from Matamoras.

New Orleans, Nov. 12.

Important from the Rio Grande—Caravajal Defeated!—The steamship *Fanny* has arrived with late and important news from the Rio Grande. Gen. Caravajal has been compelled to raise the siege of Matamoras. He held out for some time in hopes of daily receiving reinforcements, but being disappointed was compelled for want of artillery to retreat.

The Mexicans than sallied from the town and routed the insurgents, who suffered an immense loss. Caravajal succeeded in reaching Reynosa, at which place he collected his scattered forces, and was about to return to Matamoras to renew the attack.

An extra from the office of the Rio Bravo giving still later accounts, says that Caravajal is daily receiving large reinforcements, and had commenced his march for Matamoras, at which place Gen. Canales had arrived with 300 of the National Guard. Urega was momenterily expected with 400 Regulars to assist in the defence of Matamoras. Recruiting officers had been despatched by Caravajal to the United States, and it is reported that he had also issued a declaration of independence.

Trials for Treason Yesterday.—Mr. Ashmead, U. S. District Attorney, stated in reply to a question by David Paul Brown, Esq. that he would bring up the case of Castner Hanaway, a white man, charged with treason for his alleged participation in the Christiana affair, on Monday next. This will be the first case of the forty pending, and will doubtless occupy several weeks.

A Great Feat.—Commodore Vanderbilt, the enterprising Steamboat Owner on the Nicaragua route, writes thus from San Juan del Norte, under date of November 2nd:

"I arrived here this morning in the Steamer Daniel Webster with the steamer Central America of 490 tons burthen after a passage of ten days, notwithstanding it was pronounced previously to be impossible. I shall start to-morrow morning for Lake Nicaragua, and if careful attention and perseverance will get her over the rapids, she shall be there; although I do not consider it at all certain. Therefore if you hear of her loss you must not be disappointed. She is a large vessel to get up through this river, drawing about 4 feet of water, when you know I never pretended, nor do I now, to navigate it with a greater draft than 20 to 22 inches, which is the draft of the small iron steamers now navigating it. When the expedition that has thus far marked the progress of this little vessel is taken into consideration, I think it will somewhat astonish the world. You recollect that I had her built in 27 days. She lay in New York some 6 days waiting the departure of the Daniel Webster, and 10 days bring her here, a distance of 2000 miles by sea. *The whole time from the first stroke of a hammer towards her construction, is but 43 days.*"

Oconto.—This spot, generally known among the Lumbermen as "Jones' Mill," has been selected by the people of the unorganized county of Oconto, as its permanent County Seat. It is situated at the mouth of Oconto river, (which empties into the Green Bay, about 50 miles north of this town,) a stream of considerable importance to the Lumbering and Fishing interest of Northern Wisconsin; its advantages for trade will soon create a village of no inconsiderable importance; and its politics are so reliably Whig that we may anticipate a sound administration of its local government.—[Green Bay Spectator.

Nov 22 dtd. ALFRED JOHNSON, City Clerk.

At a Meeting of the Common Council of the City of Milwaukee, held Thursday, November 20th, 1851, the following resolution was adopted:

Resolved, That the alley through block one, in the first ward, be, and the same is hereby declared a public nuisance. The owners, agents, or occupants of lots bordering on said alley, are hereby required to abate said nuisance by constructing a good and efficient sewer through said alley, and filling said alley with good coarse gravel, to a sufficient height to prevent the accumulation of stagnant water therein, according to the grade and specifications of said improvement given by Mr. J. B. Vliet, Surveyor of the first ward as follows:

SPECIFICATIONS

For Sewer in Alley in Block One in First Ward.

The sewer is to be 16 inches in the clear, on the inside, and is to be constructed in the following manner:

A ditch is to be excavated to the proper depth and grade [illegible] feet wide at the bottom.

A floor of 3 inch oak planks is to be laid transversely across the bottom of this ditch; the planks to be of [illegible] feet wide.

Two continuous cleats or courses of oak scantling 2 by 4 inches, one on each side, and then to be spiked with 7 inch spikes to this floor, with at least one spike in each cleat to every two floor planks, to prevent the sides from crushing in at the bottom.

The sides are to be of oak timber 8 inches square, the upper course to be furnished with a rabbet or cleat 2 by 1 inches, spiked at least once in every foot with 5 inch spikes.

The planks for covering are to be of 4 inch planks of oak and 2 feet long, so as to fit tightly within the cleats or rabbets on the top course of side timbers and form a brace. Said planks to have openings 12 inches square, covered with wrought iron grates, one for each lot opposite the same.

The culvert is to be in the middle of the alley, and the bottom opposite the line between lots 4 and 5 of block 14 to be 6 inches above high water in the Milwaukee River, and is thence to descend 6 inches to the south gutter on Oneida street, and thence along the gutter on the same pitch to the river, and also descend 6 inches to the north gutter on Mason street, and thence along the gutter on the same pitch to the river.

The alley is then to be graded in such a manner that the top of the sewer shall be the grade of the middle of the alley, and the sides of the alley 8 inches higher, with slopes of not more than 5 in 100 ascending to Mason and Oneida streets.

If the said work is not completed within ten days from the adoption hereof, then the local committee of the first ward are hereby authorized to cause the same to be done at the expense of said lots respectively as provided by law.

R. R. R.

Science, by subjecting the laws of chemistry to the skill of man, has contributed to his health and happiness, by stopping the most cruel and severe pangs of pain in an instant, and curing the most obstinate Chronic Complaints IN A FEW HOURS.

RADWAY'S READY RELIEF,

INTERNALLY AND EXTERNALLY,

Instantly stops Pain, and speedily cures its cause.

It is warranted to give relief to the following pains

In Fifteen Minutes,

And to speedily and effectually cure the diseases:

Rheumatism,	Cholic,
Lumbago,	All Summer Complaints,
Paralysis,	Sick Headache,
Stiff Joints,	Neuralgia,
Soreness in the bones,	Tic Doloreux,
Pain in the limbs,	Chill Fever,
Cholera Morbis,	Ague Cake,
Dysentery,	Heart Burn,
Diarrhoea,	Sore Throat,
Cramps and Spasms,	Colds, &c.

PAIN

Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and eure its cause.

RHEUMATISM.

100,000 cases cured in 1850. The most excruciating pain stopped in two hours.

Radway's Ready Relief is the quickest, safest, and most effectual remedy for the cure of Rheumatism in all its forms, in use; we state only what we know. It will stop the most torturing pains of this distressing complaint by one application. We have never known it to fail in giving instant relief. In every city, village and town of America, it has cured some of the people of this cruel complaint.—In every case we warrant it to do as stated—it will instantly relieve the sufferer from pain, and speedily cure its cause.

SICK AND NERVOUS HEADACHE.

100,000 persons cured in 1850. It will give relief in fifteen minutes.

Radway's Ready Relief, taken according to directions, will speedily and effectually cure this complaint. Taken internally and applied externally, it refreshes the senses, cleanses the stomach, stops all irritation to the nerves, and relieves the sufferer from pain in 15 minutes. It is now curing hundreds daily of the sick and nervous headache.

NEURALGIA.

10,000 Neuralgia cases cured in 1850. It will stop the most violent pains in fifteen minutes.

The cruel and excruciating pangs of pain of this distressing complaint are instantly arrested by Radway's Ready Relief. The happy and invigorating effects it produces on the nervous system, rendering the nerves iron proof, quickly restores the energy and cures the disease. Radway's Ready Relief is the only remedy that has effectually cured Neuralgia in its worst forms.

DIARRHEA.

200,000 persons cured in 1850. Pains stopped in fifteen minutes.

Radway's Ready Relief cured more cases of cholera morbis, dysentery, cholic and all bowel complaints, the past year, than any other remedy in use. On the banks of the Mississippi, Missouri, Illinois and Ohio rivers, in New Orleans, St. Louis, Cincinnati, Detroit, Chicago, Milwaukee, Galena, and other places where the diarrhea, cholera and dysentery raged so fearfully, Radway's Ready Relief was used with the best success. It will in 15 minutes stop the most violent cramps and spasms, impart a genial heat throughout the whole system, allay all irritation, stop the painful discharges and relieve the patient from all pain.

CRAMPS AND SPASMS.

A teaspoonful of Radway's Ready Relief, taken internally and by bathing externally, will in a few minutes stop the most violent Cramps and Spasms. BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck,
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAYS MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

Price 25 Cents per bottle.

The subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain fires and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—as it is wished to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

STATE FAIR.

Crane's Patent Soap took the First Premium at the State Fair at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the American Institute. Of course it must, because it is the BEST Soap in use. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used Crane's Patent Soap in our families for the past eight months, and pronounce it fully equal to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

JOHN DWIGHT & CO'S SODA SALÆRATUS

May be found at the Sugar Warehouse of Goodrich & Hunter, No. 12 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

TAKE NOTICE!

PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of the spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statements of competent persons in this city and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!
and when we say that one firm in New York (Troy) manufactured and sold over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities

ONE HUNDRED THOUSAND
Have been made and offered, we need say nothing but the truth, so favorably [illegible] These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massillon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.
This patent received the

HIGHEST PREMIUM,
at the late Fair of Rensselaer county, N. Y.; New York, Albany, State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O.; Stark county, O., and numerous others.

A New and Valuable Improvement in Bedsteads.
We the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co. pronounce it the superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

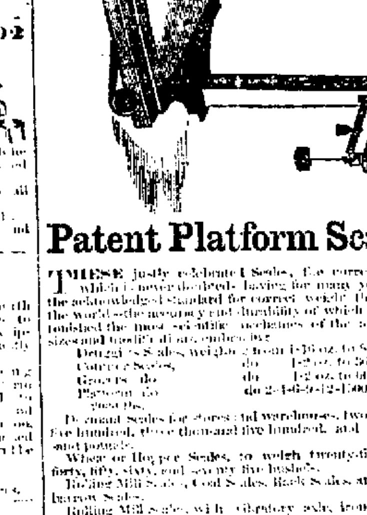

We find, too, that for cheapness it does not cost any more than the common cord screw, the expense of the cord and working bottom being saved; and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

PATENT MEDICINES.

Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla.

IS NOW PUT UP in the largest sized Bottles, and is acknowledged to be the BEST SARSAPARILLA made, as is certified by the wonderful Cures it has performed, the original copies of which are in the possession of the proprietor. Remember, this is the only TRUE and ORIGINAL article.

This Medicine, when used according to directions,

Will Cure Without Fail,
Scrofula, or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm, or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, old Sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Disease of the Kidneys, Loss of Appetite, Diseases arising from the use of Mercury, Pains in the Sides and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, and Costiveness.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every woman who has suffered from female complaints, will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.
Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.
J. L. TIGRE & Co.

HUMMASVILLE, Oswego Co., May, 1848.
S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla, for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.
Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.
The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.
S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something than from any hope of getting relief, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced using it, and to my astonishment, he commenced to improve before he had used the first bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAMES RUSSELL.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr. and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure, in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed. For inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" The' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an untarnished reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable: and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he boldly submits it to the combined medical merits, and confidently challenges the combined skill of Europe and America to produce one of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that those opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.
Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern:—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 23, 1849.
We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.
(Signed) E. W. SEHON,
E. STEVENSON.

Testimony Like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.
From Doctor L. P. Yandell, Professor of Chemistry in the Louisville Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.
L. P. YANDALL, M. D.
Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.
From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.
Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.
Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.
I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

IT IS BETTER THAN ALL OTHER REMEDIES.
[illegible]
There is no other remedy that claims to subside the excited pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a trial change is promised. Not so with Radway's Ready Relief: its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.
Radway's Ready Relief has cured over 900 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Romeo, Michigan writes: "Out of our Village of 1099 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now the leading every kind of Medicine we have here, in relieving pain and curing diseases of Nervous, Rheumatic and of Bilious type."

LADIES' BEDSIDE COMPANION.
Radway's Ready Relief, from its universal application for all Pains, Aches, and Complaints incident to its country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Face ache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief.

RHEUMATISM CURED IN 20 MINUTES.
It has cured Mr. T. Freely, of 679 Water-st. who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of our popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "in two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours,—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies to relieve, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.
Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It soothes the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snow-flake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to blunt the acute sensibility of the nerves—to give steadiness, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES
Should make use of Radway's Ready Relief as a Bath. Its invigorating and relaxing properties softens the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.
Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness, throat, and asthma, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchial organs and by bathing the outside of the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.
By adding a table spoonful of Relief to a dessert-spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Barns, Sores, Scalds, &c.

THE GREAT REMEDY
FOR
PILES, HABITUAL COSTIVENESS,

FEMALE COMPLAINTS,
Nervous Debility,
DYSPEPSIA,
OR
Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS!

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine Dr. Townsend's Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,

RENOVATES THE BLOOD,
allays NERVOUS EXCITEMENT, and reanimates the
Whole Body with New Life.

Dr. JAMES R. CHILTON,
The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits
Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!
Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE
PREPARED from RENNET, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

[illegible]

AS A DYSPEPSIA CURER.
[illegible]

"Baron Liebig in his celebrated work on Animal Chemistry, says: 'An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach.'"

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for diseases of the Stomach and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only question is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.
Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.
There is no form of Old Stomach Complaints, which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

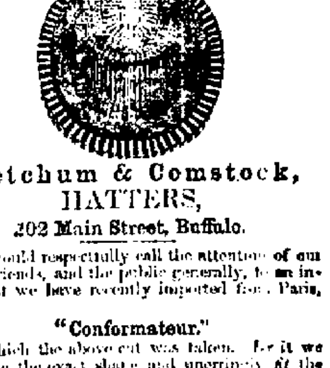

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

Observe this!—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."
from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fitting Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM which will readily acknowledge to be the best, we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; comprising any $3.5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
